

Preparing for, and Maintaining Showpony Premium Remy A+ Tape Extensions

It is not recommended to colour your hair on the same day that you are having hair extensions applied. You will need to allow at least 48hrs between colour and hair extensions application.

DO:

- Use the recommended Hair Care Range.
- Apply conditioner to the mid lengths and ends only.
- Schedule maintenance every 4 – 6 weeks.
- Use low heat when drying or styling hair.
- Make sure the tapes are always dried completely after washing.
- Brush hair at the ends first to avoid tangling.
- Secure hair with one hand while brushing to avoid tension.
- Rinse hair immediately after swimming in chlorine or salt water.
- Gather hair in a loose plait while sleeping.
- Use metal-free ties and low tension if tying hair up.
- Sleep on a silk pillow case.
- Be gentle when handling you hair extensions.

DON'T:

- Wash your hair or participate in any form of exercise for 48 hours following application as moisture from the scalp may affect the adhesion of the tapes.
- Apply conditioner to the root where the extension is attached to the natural hair.
- Use any medicated or toning products on your hair extensions.
- Sleep on wet hair.
- Rub or twist the hair whilst towel drying.
- Do not bleach or colour your extensions yourself.

Recommended Products:

- Loop Brush
- Keune So Pure Colour or Moisture Shampoo and Conditioner.
